**TERMINAL DISCLAIMER UNDER 37 CFR 1.321(c)**

The owner of the entire interest in the instant application hereby disclaims the terminal part of any patent granted on the above-identified application which would extend beyond the expiration date of the full statutory term, as presently shortened by any terminal disclaimer, of U.S. Patent No. 5,531,529, which forms the basis of the double patenting rejection. And the owner hereby agrees that any patent so granted shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to said U.S. Patent No. 5,531,529. This agreement runs with any patent granted on the above-identified application and to be binding upon the grantee of such patent and its successors or assigns.

Petitioner does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of U.S. Patent No. 5,531,529, as presently shortened by any terminal disclaimer, in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, or is otherwise terminated prior to the expiration of its statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

I, Charles W. Calkins, represent that I am the attorney of record for the above-identified application

The Commissioner is hereby authorized to charge payment of the Terminal Disclaimer fee (\$55) under 37 C.F.R. §1.20(d) to Deposit Account Number 16-1435. A duplicate of this sheet is attached for that purpose. A Verified Statement of Small Entity Status has been previously submitted on March 5, 1996.

Respectfully submitted,
